

PRODUCT DATA SHEET

Product: Dog Reference Serum

Cat. No.: KT-094 (1.0 mL)

Description:

Dog Reference Serum is an assayed control material for use with the **K-ASSAY**® Dog Complement C3 (KT-335), Dog CRP (KT-093), Dog Haptoglobin (KT-336), Dog IgE (KT-391), Dog IgG (KT-392), Dog Microalbumin (KT-389) and Dog Transferrin (KT-337) ELISAs.

Format:

1 mL liquid dog reference serum with 0.1% sodium azide. Assayed values for dog Complement C3, dog CRP, dog Haptoglobin, dog IgE, dog IgG, dog Microalbumin and dog Transferrin are available (assayed values were obtained using the corresponding **K-ASSAY**® ELISAs). See Control Certificate for the lot specific concentrations.

Procedure:

Serum was collected from several dogs.

Storage:

For storage longer than 7 days keep frozen. Storage less than 7 days can be at 4°C. Avoid multiple freeze/thaw cycles.

Limitations:

For *in vitro* research use only. Not for use in diagnostics or in humans.

Warranty:

No warranties, expressed or implied, are made regarding the use of this product. **KAMIYA BIOMEDICAL COMPANY** is not liable for any damage, personal injury, or economic loss caused by this product.
