

PRODUCT DATA SHEET

Product: Rat Reference Serum 1

Cat. No.: KT-100 (1.0 mL)

Description:

Rat Reference Serum 1 is an assayed control material for use with **K-ASSAY**[®] Rat Alpha-1 Acid Glycoprotein (KT-192), Alpha 2-Macroglobulin (KT-353), Ceruloplasmin (KT-356), Complement C3 (KT-355), CRP (KT-099), Fibronectin (KT-415), Haptoglobin (KT-190), Hemopexin (KT-357), IgA (KT-416), IgG (KT-418), IgM (KT-419), Microalbumin (KT-354) and Transferrin (KT-358) ELISA kits.

Format:

1 mL liquid rat reference serum 1 with 0.1% sodium azide. Assayed values for Rat Alpha-1 Acid Glycoprotein, Alpha 2-Macroglobulin, Ceruloplasmin, Complement C3, CRP, Fibronectin, Haptoglobin, Hemopexin, IgA, IgG, IgM, Microalbumin and Transferrin are available (assayed values were obtained using the corresponding **K-ASSAY**[®] ELISA kits). See Control Certificate for the lot specific concentrations.

Procedure:

Serum was collected from rats of several strains, both sexes and a range of ages.

Storage:

For storage longer than 7 days, keep frozen. Storage less than 7 days can be at 4°C. Avoid multiple freeze/thaw cycles.

Limitations:

For *in vitro* research use only. Not for use in diagnostics or in humans.

Warranty:

No warranties, expressed or implied, are made regarding the use of this product. **KAMIYA BIOMEDICAL COMPANY** is not liable for any damage, personal injury, or economic loss caused by this product.
