

PRODUCT DATA SHEET

Product: Pig Reference Serum

Cat. No.: KT-185 (1.0 mL)

Description:

Pig Reference Serum is an assayed control material for use with **K-ASSAY**® Pig Haptoglobin (KT-349) and CRP (KT-184) ELISA kits.

Format:

1 mL liquid pig reference serum with 0.1% sodium azide. Assayed values for pig Haptoglobin and CRP are available (assayed values were obtained using the corresponding **K-ASSAY**® ELISA kits). See vial label and control certificate for the lot specific concentrations.

Procedure:

Serum was collected from a single pig.

Storage:

For storage longer than 7 days keep frozen until the expiration date. Storage less than 7 days can be at 4°C. Avoid multiple freeze/thaw cycles.

Limitations:

For *in vitro* research use only. Not for use in diagnostics or in humans.

Warranty:

No warranties, expressed or implied, are made regarding the use of this product. **KAMIYA BIOMEDICAL COMPANY** is not liable for any damage, personal injury, or economic loss caused by this product.
